WEETHALLE SILO ART

Grain storage silos right across Australia have long been considered an iconic part of the landscape to those who reside in rural communities. Built in 1930, the original concrete silos in Weethalle (type S024) have a 2400 tonne capacity and stand at a whopping 21 metres high by 31 metres wide.

Located across open parkland on Railway Street, the Main street of Weethalle (along the Midwestern Highway), the silos provide the perfect canvas for the stunning large scale public art mural that was completed by renowned Melbourne based street artist Heesco in June 2017. The large scale mural is a tribute to the rich agricultural heritage of the small community of Weethalle and the surrounding Bland Shire communities.

While visiting the small Weethalle community why not take advantage of the camping and caravan facilities located at the Weethalle showground and stopover at the iconic Whistlestop Cafe for a delicious coffee and Devonshire Tea.

Silo Art memorabilia is available for purchase from the Whistle Stop Cafe during the day and also the Weethalle Country Club after business hours.
