

# The Fruit Fly Pat

Take a 2 litre milk container, keep the lid on.  
Cut 3 holes in the bottle about the size of a 10 cent piece 10cm from the top.  
Put a string around the lid and hang in a tree in the shade at about 1-1.5mtrs high.

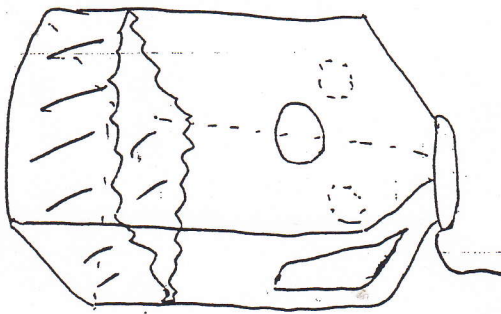

## Mixture:

2 large table spoons or vegemite  
2 large table spoons of ammonia bleach  
2-3 droplets of insecticide  
Then fill the bottle to about 100ml of liquid.  
In very hot conditions swap the vegemite/  
water for fresh orange juice to reduce the  
capture of blow flies. Change weekly
