Introduction

The Council's Operational Plan outlines our commitment to delivering high-quality services and strategic initiatives that support the vision of a thriving, inclusive, and sustainable community. Guided by the themes of *Place*, *Growth*, *People*, *Family*, and *Home*, this plan translates our long-term goals into practical actions for the year ahead.

Each theme reflects a core priority for our community: *Place* focuses on vibrant, safe, and connected environments; *People* highlights wellbeing, equity, and opportunity for all; *Growth* safeguards responsible planning and economic vitality; *Family* supports nurturing and resilient households; and *Home* addresses housing, livability, and a sense of belonging.

Together, these themes shape a roadmap that responds to current challenges while laying the groundwork for a stronger future. This plan reinforces our shared purpose—to build a community where everyone has the opportunity to live well, now and for generations to come.

The Community Strategic plan is the starting point for the development of Council's Integrated Planning and Reporting documents. This Community Strategic Plan was endorsed by Council at its meeting on 18 February 2025 with resolution number 11022025. It sets out the ten-year agenda and identifies other organisations involved in bringing the aspirations of the community to fruition. While Council prepares this document on behalf of the community, it is not responsible for delivering it all. This element also includes references to the Quadruple Bottom Line of economic, environment, leadership and social

outcomes.

The Delivery Program establishes the commitment of the current Council to the Community and identifies what programs and projects this Council wants to deliver on behalf of the community. It sets out the principal activities to be undertaken by the council to perform its functions, is a four-year document which must be established after each ordinary election.

The actions listed in the Operational Plan identify what undertakings will be embark on by Council during the financial year. The final document will also include the Budget for the 2025/26 year as well as the measures which will be used to report back to the Council and the community as to how progress is being achieved.

How to read this plan

The **Operational Plan** (OP) is a key component of the NSW Integrated Planning and Reporting (IP&R) Framework, which starts with the 10-year Community Strategic Plan (CSP) document.

The OP outlines the specific actions, projects, and budgets a council will deliver in a single financial year to achieve the objectives set out in the Delivery Program.

DP Strategies

OP Actions and Responsible Officers

While the Delivery Program strategies provide a four-year view, the Operational Plan translates that vision into detailed, actionable steps with clear responsibilities.

It ensures accountability and transparency in council operations and helps track progress toward long-term community goals.
